FRANCINALDO BARBOSA

MANIQUARA VILLAGE, AMAZON, BRAZIL

Pastor Supervisor: Eustáquio

SOLIMÕES RIVER

The community of Maniquara is small, made up of only a few families, and has limited access to basic services such as medical care. Despite these limitations, the mission has been steadily and encouragingly moving forward.

The missionary has been serving in this location for about one year and has been walking in the Christian faith for 11 years. His focus has been on strengthening the local church and discipling the community.

Current Challenges

- Engaging members of the local church in missionary outreach to other riverside communities along the Solimões River;
- Significant financial hardship, as available resources are not sufficient to cover his personal and ministry expenses.

Prayer Requests

- For the Maniquara church and its growth;
- For the people of the community and for God's provision for the missionary.
