

LEANDRO PASTANA SILVA

Village: Terra preta

Pastor Supervisor: Ivan Laray

BLACK RIVER

The missionary has been actively engaged in home visits, pastoral counseling, and leading a family group on Fridays. During the sowing season, he has already seen fruit, reaching five people just this month and beginning discipleship with six new converts. He also carries out ministry in other communities; last month, he was in the Inglês Community, conducting children's activities, visits, and an evening service—marked by many blessings.

He serves the Lord alongside his parents, who have been a tremendous support in the ministry. Together, the family forms a united and committed missionary core dedicated to advancing the Kingdom.

Current Challenges

- Difficult logistics: all travel depends on boats, and the missionary does not yet own a vessel;
- Counseling couples despite being single himself;
- Dealing with the spiritual immaturity of many brothers and sisters.
-

Prayer Requests

- For the missionary's physical and emotional health;
- For strength, courage, and boldness in the ministry;
- For the progress of the *Clean Water Project*, especially in the Tumbira Community, that many lives would be reached.
